Air bp terms and conditions apply to any fuel order & transaction. See www.airbp.com/terms for details. Prices, duties, taxes and fees cited in this message are valid on the day of issuance and therefore subject to change without notice. The duties, taxes and fees information contained in this message is purely for information purposes and provided as a guide only. This price is quoted using the IATA exchange rate on the month of pricing to calculate duties, taxes and fees information, and invoicing may be based on a different exchange rate (i.e. ECB), and or the rate on the day the invoice is generated. For further information on duties, taxes and fees, please refer to the Air BP Duties, Taxes and Fees available on www.airbp.com, alternatively please contact your Account Manager. Air BP makes no representation or warranty in respect of any of the information on duties, taxes and fees contained in this message, nor as to the availability or specification of fuel at any location on any given date. The information contained in this quotation is confidential to Air BP. You must not distribute any such information.

Please also note that the value of the Pricing basis quoted (PB) is provided strictly as a guide and for information purposes only, to assist you should you require it. The PB refers to the current averages using best relevant information currently available and BP does not in any way guarantee the accuracy of the PB when and if used as it may no longer be applicable in the time frame when the uplift takes place. In all cases, the differential amount as cited in these documents, shall be the contracted amount to appear in the invoice and settled as agreed.
